About Me

Hi, my name is Theodoros Georgakopoulos and I am a computer engineer. I enjoy building and troubleshooting systems and creating applications. Throughout my career I have worked at many companies and institutions gaining teamwork and leadership skills.

I am most skilled in building websites and handling complicated IT problems.

Education

University of Patras Diploma, Department of Computer Engineering & Informatics

The Computer Engineering & Informatics Department (CEID) of the Engineering School of the University of Patras was founded in 1979. The department's mission is to provide education and research in the broad field of Computer Science and Engineering (CS&E), Communications and Informatics.

During my time at CEID I learnt most of my key skills that have I have taken through my career such as teamwork and working to tight deadlines. During my student years, I have successfully completed a number of projects while developing my skills.
